

My Nature Notes

Date: <u>Sept 26/14</u>	Time: <u>8:15</u>
Location: <u>bridge forest</u>	Temperature: <u>13°C</u>
Weather Conditions: <u>sunny with light wind</u>	
Phase of the Moon: <u>New moon</u>	Time of Sunrise: <u>06:56</u>
	Time of Sunset: <u>18:52</u>
Purpose of Today's Walk: <u>Today's walk we were looking at different habitats and if there made by humans or nature</u>	
Observations: <u>We saw 4 female ducks and 1 male. weird huh! While we were walking across the bridge the class spotted something on a stick we didn't know what it was. We went back into the classroom and found out it was Green Heron if haven't seen one before!</u>	
	

Please continue on back.

Why don't green herons come out so often.
